

# Overall Design Style

## Modern SaaS Data Platform Aesthetic

The UI follows a **modern analytics dashboard style** commonly seen in high-end SaaS products such as:

- Stripe Dashboard
- Vercel Admin
- Linear
- Retool
- Segment
- Notion Analytics
- Plausible
- Supabase

The design language emphasizes:

- **Clarity**
- **Hierarchy**
- **High data density without feeling crowded**
- **Subtle motion and micro-interactions**
- **Rounded minimal components**
- **Neutral color palette with a single accent color**

The result is a **professional, enterprise-grade, calm interface**.

---

# Layout System

## 3-Part Structural Layout

The UI follows a very consistent structural pattern:

None

| Sidebar Navigation | Main Content Area |

Inside the main content area:

None

Header Bar

Summary Metric Cards

Secondary Metric Cards

Large Visualization Panels

Supporting Detail Panels

This creates **clear scanning zones**.

---

## Spacing System

Spacing is extremely consistent and follows a **4px / 8px grid system**.

Typical spacing values used:

| Element                | Spacing |
|------------------------|---------|
| Small gap              | 4px     |
| Compact spacing        | 8px     |
| Standard spacing       | 12px    |
| Component padding      | 16px    |
| Section separation     | 24px    |
| Major block separation | 32px    |

Cards typically use:

None

**padding: 16px – 20px**

Sections are separated by **24–32px vertical rhythm**.

The design relies heavily on **breathing room**.

Nothing feels cramped.

---

## Color Palette

The palette is **neutral first with a single accent color**.

### Background

Primary background:

None  
`#F8FAFC`

or similar soft grey.

Cards:

None  
`#FFFFFF`

Subtle contrast between page and cards.

---

### Border System

Borders are extremely subtle:

None  
`#E5E7EB`

or

None  
`rgba(0, 0, 0, 0.06)`

Cards use:

None

```
border: 1px solid neutral-grey  
border-radius: 10px-12px
```

This creates a **soft modular layout**.

---

## Accent Color

Primary accent is a **calm blue tone**.

Typical color:

None

```
#2563EB
```

or

None

```
#3B82F6
```

Used for:

- Graph lines
- Buttons
- Highlights
- Interactive elements

The accent color is **used sparingly**.

---

## Typography

Typography is **clean and neutral**.

Most likely fonts:

### Primary UI Fonts

None

Inter

or

None

SF Pro Text

or

None

System UI stack

Example stack:

None

```
font-family:
Inter,
-apple-system,
BlinkMacSystemFont,
Segoe UI,
Roboto,
Helvetica,
Arial,
sans-serif
```

---

# Font Hierarchy

## Page Title

Weight: **600–700**

Size:

None

22px–26px

---

## Section Headers

Weight:

None

600

Size:

None

16px–18px

---

## Card Titles

Weight:

None

500–600

Size:

None

13px–14px

Uppercase or small caps sometimes used.

---

## Metric Numbers

Weight:

None

600–700

Size:

None

24px–32px

Large and easy to scan.

---

## Supporting Labels

Weight:

None

400–500

Size:

None

12px–13px

Color:

None

#6B7280

Muted grey.

---

# Card Design System

Cards are the **core UI primitive**.

Card styling:

None

```
background: white
border-radius: 12px
border: 1px solid #E5E7EB
padding: 16px
```

Optional hover effect:

None

```
box-shadow: 0 1px 2px rgba(0,0,0,0.05)
```

Cards contain:

None

```
Title
Primary Metric
Trend Indicator
Small Sparkline Chart
```

This pattern repeats across the entire interface.

---

## Graph Style

Graphs follow a **minimalist financial dashboard style**.

Characteristics:

- Thin lines
- Smooth curves
- No grid clutter
- Minimal axes
- Accent color line

Typical graph style:

None

stroke-width: 2  
line color: accent blue  
area fill: light gradient

Gradient fill example:

None

rgba(37, 99, 235, 0.2)

to

None

rgba(37, 99, 235, 0.02)

---

## Sidebar Navigation

Sidebar uses **soft neutral background**.

Typical color:

None

#F1F5F9

Width:

None

240px

Structure:

None

Logo  
Primary Navigation

Section Labels  
Secondary Navigation  
User Profile

Navigation items:

- Left icon
- Text label
- Active highlight

Active item style:

None  
background: white  
border-radius: 8px  
font-weight: 600

Icons are simple **line icons**.

---

## Icons

Icon style is **outline / minimal**.

Likely icon libraries:

None  
Lucide  
Heroicons  
Feather  
Tabler

Characteristics:

- 1.5px stroke
- monochrome
- 16–20px size

---

# Buttons

Primary buttons:

None

```
background: accent blue
color: white
border-radius: 8px
padding: 8px 14px
font-weight: 500
```

Secondary buttons:

None

```
background: white
border: 1px solid #E5E7EB
```

---

# Data Visualization Panels

Large panels follow the same card system but:

- More vertical height
- More padding
- Internal layout grid

Typical padding:

None

```
20px–24px
```

---

# Hierarchy Principles

The interface uses **four main hierarchy levels**.

### Level 1

Page Title

### Level 2

Metric Cards

### Level 3

Charts

### Level 4

Supporting panels

This allows **instant scanning**.

---

## Information Density

The design balances **high data density** with **clarity**.

Techniques used:

- grouped cards
  - consistent spacing
  - minimal borders
  - subtle typography hierarchy
- 

## Rounded Corners

Standard radius:

None

8px–12px

This gives the UI a **friendly modern feel**.

---

## Micro-interactions

Typical behaviors:

- hover elevation
- subtle graph animation
- button hover color shift

Nothing flashy.

Everything is **fast and subtle**.

---

## Design Philosophy

This UI follows **five key principles**:

### 1. Calm interfaces

Neutral colors reduce visual fatigue.

---

### 2. Data first

Numbers and trends are the focal point.

---

### 3. Modular components

Cards allow easy expansion.

---

### 4. Predictable structure

Every screen follows the same layout logic.

---

## 5. Low cognitive load

Minimal clutter.

---

# Design Pattern Summary

To recreate this style, always follow this structure:

None

Sidebar (240px)

Main Content

Header

Metric Cards Grid

Secondary Cards

Large Data Panels

Supporting Panels

Spacing:

None

8px grid system

Components:

None

Cards

Charts

Metric tiles

Data panels

Typography:

None

Inter

Clear hierarchy

Muted labels

Bold metrics

Colors:

None

Neutral grey system

Single accent blue

White cards

Soft borders

---

## Prompt Template You Can Reuse for Lovable

You can paste something like this:

None

Design a modern SaaS analytics dashboard UI.

Style inspiration: Stripe, Vercel, Linear, Segment dashboards.

Use a calm neutral interface with white card components on a soft grey background.

Typography:

Inter font family with strong hierarchy:

- Page title: 24px semi-bold
- Section headers: 16px medium
- Metrics: 28px bold
- Labels: 12px muted grey

#### Layout:

- Left sidebar navigation (240px)
- Main dashboard content area
- Card-based modular grid layout

#### Spacing:

Use an 8px spacing system with consistent padding (16px cards, 24px section spacing).

#### Cards:

- White background
- Subtle border (#E5E7EB)
- Rounded corners (12px)
- Soft shadows

#### Charts:

- Minimalist sparkline style
- Thin accent color lines
- Soft gradient area fills
- No heavy gridlines

#### Colors:

- Background: soft neutral (#F8FAFC)
- Cards: white
- Borders: light grey (#E5E7EB)
- Accent: calm blue (#3B82F6)

#### Icons:

Outline icons (Lucide or Heroicons style).

#### Design principles:

Clean, modular, calm, data-dense but uncluttered.
